## 1974-75 FFA OFFICER TEAM

Members of the Appomattox Junior and Senior FFA Chapters join with over 450,000 other FFA members in the United States in celebrating National FFA Week which started February 15.

Throughout the WEEK the states' 214 chapters are planning activities to support the theme, "FFA a chance for GROWTH."

According to Senior FFA President Tommy Wheeler and Junior FFA President Ronnie Harris, the Appomattox Chapters will celebrate FFA WEEK with exhibits, bill boards, awards banquet, radio programs, TV and radio spot announcements, litter bags, placemats, bulletin boards, and news articles.

National FFA WEEK always includes George Washington's birthday in observance of his leadership in promoting scientific farming practices. Washington is considered the patron saint of the FFA and has come to symbolize the FFA Treasurer.

Organized in 1928, the FFA promotes leadership, cooperation, and citizenship among high school vocational agriculture students. The FFA Foundation awards program provides chapter, state, and national recognition for supervised programs of agricultural production, marketing, processing and service.

## Teachers Ask For Salary Increases

Appomattox County School Board, meeting on Friday afternoon, heard requests from Mr. Frank Coffey, President of the Appomattox County Teachers Association, and Mrs. Jean Mills, president-elect and chairman of the salary committee of the teachers organization, for salary increases that would average ten per cent over salaries of the past year.

Mrs. Mills pointed out that one of the major concerns of the group was the vast difference in top and bottom salary scales. She stated that a teacher who has been in the profession for 15 years is paid only 32 per cent more than beginning teachers.

Both Mr. Coffey and Mrs. Mills emphasized, along with the need for salary increases, a more definite outline of the requirements for teacher aides. These representatives also requested that the school board pay the state required life insurance.

Superintendent of Schools Lloyd Walton stated that Appomattox County average daily membership had increased from 2,544 last June 1974 to 2,748 as of Feb. 1, 1975. Superintendent Walton went on to cite improvements in many areas of the school system this year.

## Burning Law In Effect

The Outdoor Burning Law, the law requiring safety in burning brush, trash, and other debris, becomes effective Mar. 1.

James D. Starr, Assistant District Forester for the Virginia Division of Forestry, said the law, known sometimes as the 4 p.m. law and the brush burning law, actually applies to the burning of any materials in the outdoors.

The regulation, designed to reduce the number of escaped grass and forest fires, requires that burning of any materials or debris, can be done only between the hours of 4 p.m. and 12 midnight if the fire is in or within 300 feet of forestland, brushland, or other inflammable material. The law is in effect from March 1 through May 15 of each year. Starr also pointed out that this regulation is in addition to any air pollution control laws that exist and that are enforced by the Air Pollution Control Board.

Foresters urge that any burning be done after 4 p.m. and that the fire be checked the next day to be sure all sparks are cold. Fires should not be left untended and every effort should be made to make all open fires safe.

## Town Council Supports Commission On Aging

The Commission on Aging received full support from the Appomattox Town Council when they met in regular session on Monday night.

Wallace Clair of Spout Spring, Chairman of the Commission on Aging, an advisory body of 15 appointed citizens functioning under the direction of the Virginia Office on Aging and Family Service Board, appeared before council to explain the functions of the Commission.

A survey taken in early 1974 by the Central Virginia Gerontology Task Force led to the organizing of the Central Virginia Commission on Aging encompassing the counties of Amherst, Bedford, Campbell, Appomattox, and cities of Bedford and Lynchburg. The survey was funded in part by a grant from the Administration on Aging and the Department of Health, Education and Welfare under the provision of the older Americans act as amended in 1973. There will be no cost at all to the Town or County of Appomattox.

The goals, objectives, and recommended action steps are: 1. health care, 2. day activities and service centers, 3. transportation, 4. public awareness, 5. Information & Referral (we now have a center located here), 6. nutrition, and 7. volunteer services.

Mrs. Helen McCraw and Wallace Clair have been appointed by the Appomattox County Board of Supervisors to represent our county.

In Appomattox County there are 1,584 persons aged 60 and over.

Clair further reported to the council that an emergency fuel service is available to the elderly who qualify. There is $2,600 in the fund but so far there have been no applications for help in this area from our county. Any person 60 or older who qualifies can get emergency fuel free or be given the opportunity to repay either part or all of the fuel bill if they so choose.

In other business before council, Mrs. Jeanne Stanley, owner of Jeanne's Steak House, and J. T. Guill, owner of Guill's Restaurant, asked council for permission to sell beer and wine on Sundays from the hours of 1 p.m. to 7 p.m. Mrs. Stanley asked to be allowed to sell "on premises" only and Guill asked to be allowed to sell "off premises".

No action was taken at this meeting but a decision is to be made prior to the next meeting of the Town Council.

Council voted to authorize the Property Committee to get bids from Lawson Ford, Inc. and from Moses Motor Company on trade-in of old town police car for one of the models in stock so that the town can be eligible for a company rebate.

The Property Committee was also authorized to make the purchase after receiving the bids.

W. S. Slagle, Town Manager, reported to council that $197,000 is available under the Community Development Act of 1974. Council authorized Slagle to submit a grant application for funds to be used to acquire property for the Downtown Project and possibly for improvement to the water system.

Harry G. Lawson, representing Courtland Realty, Drinkard, and Jamerson, owners of Triangle Plaza Shopping Center, appeared before council to try and clarify a misunderstanding regarding water bills for businesses and offices located at the shopping center. They pay the same water rate as other out-of-town customers but are being charged the minimum on five businesses and offices in one building. Four of these businesses share one bathroom facility and the

## Supervisors Asked To Consider 5-Member Board

Earl Pickett, legislative director of the Appomattox County Board of Supervisors, appeared before the Board of Supervisors Friday morning to present a proposal that the board be increased from 3 to five members with staggered terms.

Pickett stated in his discussion of the proposal that his organization, Virginia Farm Bureau, thought such action would be in keeping with the development of the county. Such action would require some redistricting and board members did not feel that the cost of these changes and the new board members would be feasible at this time. However, the board members informed Pickett that they would keep the recommendation in mind.

In other business the board adopted a resolution accepting the Walton Place Sub-Division into the Appomattox County Road System for maintainance.

Superintendent of Appomattox County Schools, Lloyd Walton, in his report to the board, stated that the growth in the county's average daily membership had increased from 2,544 on June 5, 1974 to 2,748 as of February 1, 1975.

Mrs. H. Webster Babcock was reappointed as member of the Central Virginia Mental Health and Retardation Board.

H. L. Rexrode, Consultant for Commonwealth of Virginia Bureau of Solid Waste and Vector Control, stated in a letter to board members that Appomattox County has an "excellent" rating in its landfill operations.

## Successful Bloodmobile Visit
